For further information, contact:

Jenna LaBounty, Acting Public Information Specialist, at 682-5197, or  
Melinda Kletzok, Public Information Director, at 682-5124

## **Eugene Police launch online access to activity log**

The Eugene Police Department has added the police activity log to the City of Eugene website in an effort to further streamline the community's access to police dispatch information.

The information on the daily activity log reflects the calls for service the Eugene Police received during a 24-hour period. The daily log will be posted every weekday at noon for the previous day's activity, and will remain available for a month. Weekend activity reports will become available at noon the following business day.

The log allows the ability to view dispatch records, as well as the narrative details of some calls. Confidential details will not be accessible through this program.

Eugene Police staff worked together with the Lane County Regional Information System staff, as well as other local agencies, to develop a program to extract the information from the current dispatch software.
